

Swag Labs Bug Report

BUG-001: Checkout Allows Order Completion With Empty Cart

Severity: High

Environment:

Chrome Browser

Steps to Reproduce:

1. Login using standard_user.
2. Do not add any products.
3. Open cart.
4. Proceed to checkout.
5. Enter customer information.
6. Continue and click Finish.

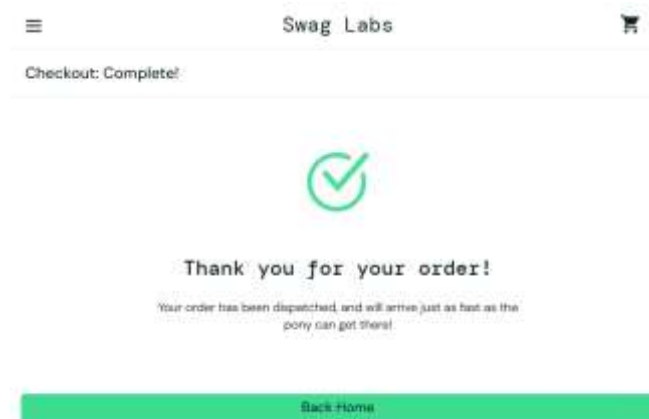

Expected Result:

Checkout should be blocked when cart is empty.

Actual Result:

Order confirmation is displayed despite no products being purchased.

BUG-002: Reset App State Does Not Immediately Refresh UI

Severity: Medium

Environment:

Chrome Browser

Steps to Reproduce:

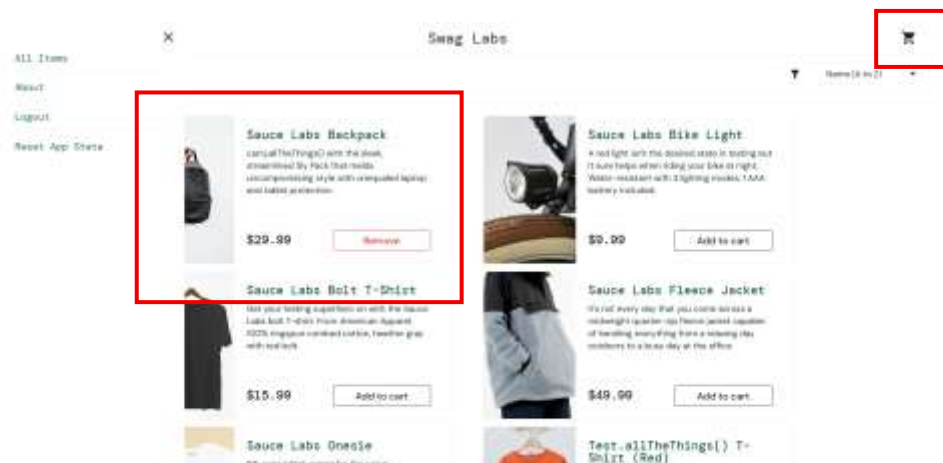

1. Login using standard_user.
2. Add products to cart.
3. Open menu.
4. Click Reset App State.

Expected Result:

Cart badge and inventory state should update immediately.

Actual Result:

Changes are not reflected until refresh/navigation occurs.

BUG-003: Product Remove Functionality Fails On Inventory Page

Severity: High

User: problem_user

Steps to Reproduce:

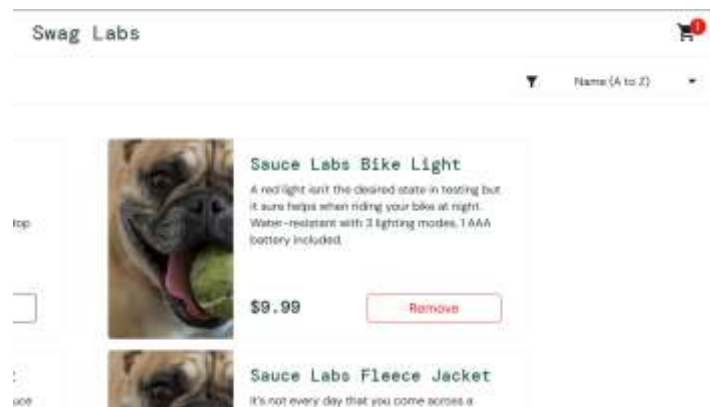

1. Login as problem_user.
2. Add affected product.
3. Click Remove on inventory page.

Expected Result:

Product removed from cart.

Actual Result:

Remove button does not work.

BUG-004: Last Name Field Is Unusable During Checkout

Severity: Critical

User: problem_user

Steps to Reproduce:

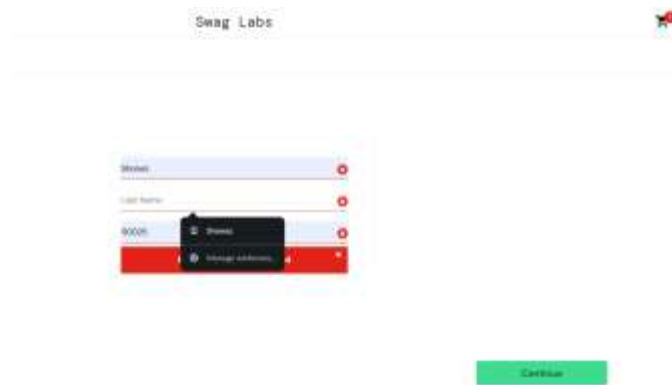

1. Add product to cart.
2. Proceed to checkout.
3. Attempt to enter Last Name.

Expected Result:

User should be able to enter Last Name.

Actual Result:

Last Name field cannot be completed correctly, preventing checkout progression.

BUG-005: Product Sorting Functionality Does Not Work

Severity: Medium

User: problem_user

Steps to Reproduce:

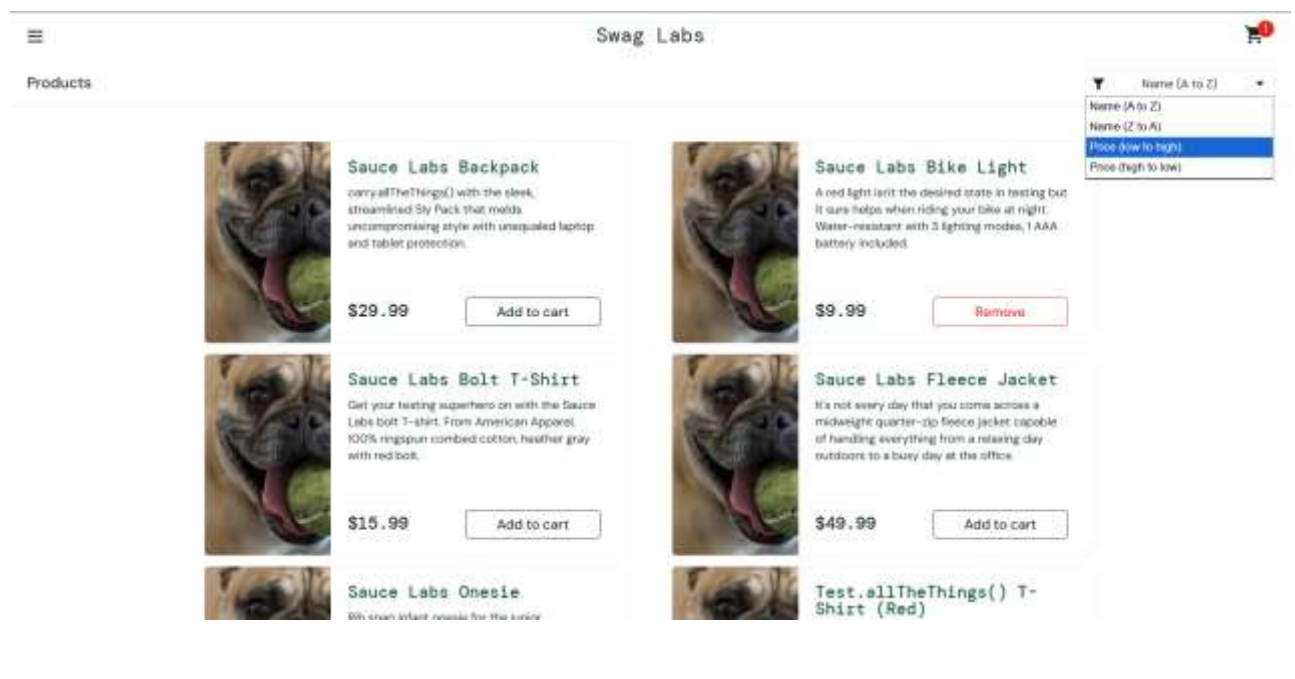

1. Login as problem_user.
2. Select any sorting option.

Expected Result:

Products reorder according to selected sort criteria.

Actual Result:

Sorting functionality does not work correctly.

BUG-006: Finish Button Does Not Complete Order

Severity: Critical

User: error_user

Steps to Reproduce:

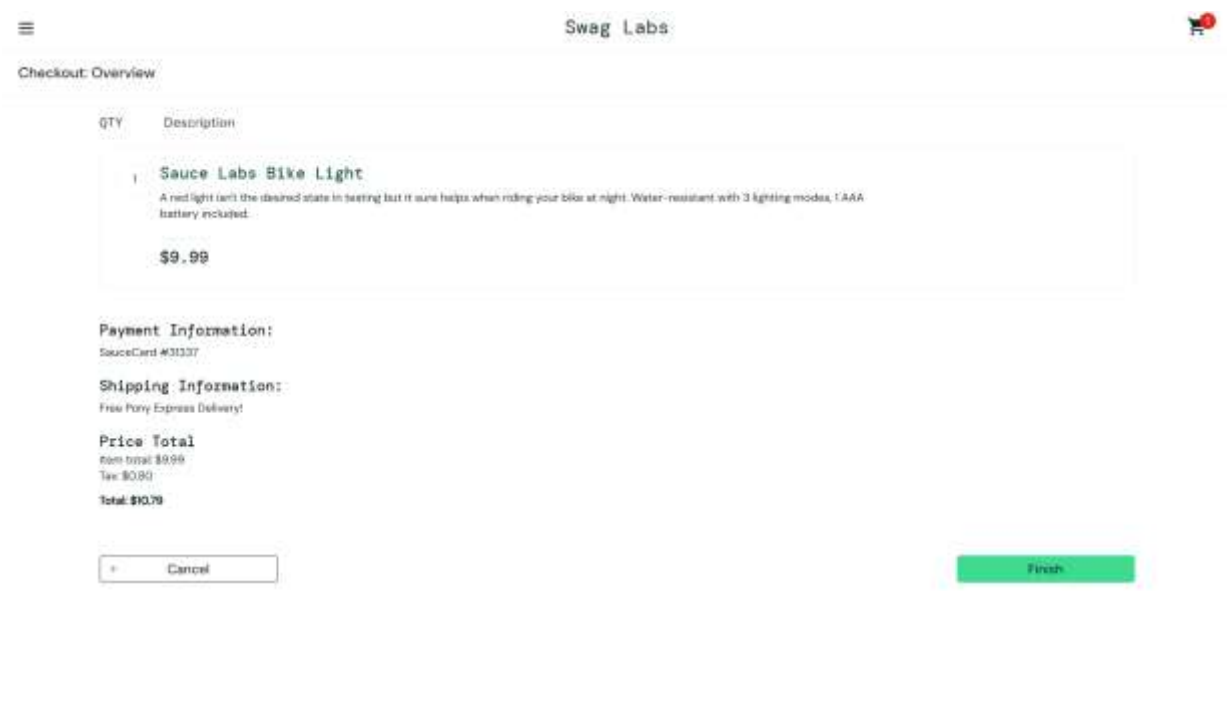

1. Add product.
2. Proceed through checkout.
3. Click Finish.

Expected Result:

Order should be successfully completed.

Actual Result:

Finish button does not complete the order.

BUG-007: Price Sorting Produces Incorrect Results

Severity: High

User: visual_user

Steps to Reproduce:

1. Select Price Low to High.
2. Select Price High to Low.

Expected Result:

Products sorted by price correctly.

Actual Result:

Displayed order does not match selected sorting criteria.
